Great Development in Grain Harvest

Specifications and applications :

- Length : 7800 mm
- Width : 2700 mm
- Height : 3750 mm
- Height of Head : 0 - 1350
- Head Width : 4500 mm
- Weight : 7100 kg
- Thrasher : Hammer with rigid Blade
- Grain Drain : Hydraulic helix
- Winnow (separator) : Ethmoid with vacuum technology maker
- Unloading straw : Hydraulic
- Steering System : Hydraulic
- Propulsion System : Hydrostatic
- Engine Power : 240 hp
- Front Tire : 1804 - 15 - 30
- Rear Tire : 825 - 16
- Grain Tank Capacity : 2000 kg
- Straw Tank Capacity : 10 m²
- Alarms : Oil, Water, Rpm, Straw Tank Full, Backward and Forward Caution Lights, Revolving Light on the Roof, rear camra

New Service in Agriculture industry

- Has final approval groups agriculture machinery
- Sum of the loss and Fractures less grain than 1% based on test group report
- Winnow innovative system with high accuracy
- Strong body distinct from other devices
- High-Speed Operation in Driving with Hydrostatic System
- Climate adaptation Iran and the middle East
- Fewer Parts, More Efficiency
- Cleanse the lands of weed seeds and stems
- Two Separate Saving Tanks for Straw and Grain
- Maintenance easy and cheap
- Increase incomes manifold for farmer and user

One year warranty and Ten years after sales services
